

## Scholastic Classroom Magazines

We have subscriptions to the following class sets of magazines and we ALSO have access to them on-line. Below each magazine is a link that will take you right to the site. There isn't a user name or password at this time but if that changes I will let you know.

**Anyone can use any/all of these online magazines in class and when the print copies start arriving I will be sending them out for you to share. If you have questions about any of this, please contact me and I will be glad to do what I can.**

Once you click on the link you can click on the area for subscribers (pictured below).

### Subscribers

[Click here for your magazine's digital resources.](#)

*(No need to log in, for a limited time.)*

I checked out the NYTimes Upfront and found it to be VERY cool. You can actually see the magazine and "turn the pages." There are also teacher resources that can be used with several different subject areas.

[www.scholastic.com/scienceworld](http://www.scholastic.com/scienceworld)

[www.scholastic.com/scope](http://www.scholastic.com/scope)

Scope doesn't have the "subscriber" box but you can click any of the links on the page and get into the various materials. This magazine has some Common Core resources that may prove useful.

The foreign language site is a bit different and I'm still having some navigation issues because I don't read Spanish or French; I am still exploring them a bit but as we all figure things out I hope we can share.
